IEE is fully accredited by the US EPA to conduct training for the Renovation, Repair, and Painting Program

DON'T WAIT

Become an

EPA
CERTIFIED RENOVATOR

EPA's

Renovation, Repair, and Painting

Final Rule 40 CFR 745:

DEADLINE: April 22, 2010

Firms **MUST** be Certified by the EPA and have one or more Certified Renovators when disturbing lead-paint in pre-1978 homes or child-occupied facilities.

Renovation Workers must also be trained. Certified Renovators are responsible for either documenting the training of their workers or may opt to have their workers also trained as Certified Renovators.

Lead Safety for Renovation, Repair, and Painting

This course was developed by the U.S. Environmental Protection Agency (EPA) in collaboration with the U.S. Department of Housing and Urban Development (HUD) to train Renovation, Repair, and Painting contractors on how

to work safely in housing with lead-based paint and comply with EPA's Renovation, Repair, and Painting (RRP) Rule, and HUD's Lead Safe Housing Rule.

Overview of 8 hr. Course

Training Non-Certified Renovation Workers

Hands - On Activities / Review / TEST

Who should take this Class?

- ◆ Home Improvement / Renovation Contractors
- ◆ Residential Rental Property Managers / Owners
- ◆ Remodelers / Carpenters
- ◆ Painters
- ◆ Plumbers
- ◆ Electricians
- ◆ Maintenance Personnel
- ◆ Workers Removing or Modifying Painted Surfaces
- ◆ Anyone disturbing more than 6 sq. ft. (Interior) & 20 sq. ft. (Exterior) of lead paint

Working in residential homes, apartments, child care facilities and schools built pre-1978

What Activities are Subject to the RRP Program?

- ◆ Remodeling and Repair / Maintenance
- ◆ Electrical Work
- ◆ Plumbing
- ◆ Painting
- ◆ Carpentry
- ◆ Siding / Window Replacement

Dust from renovations, repairs, and surface preparation during painting activities creates potential lead hazards when lead-based paint is disturbed and lead-safe work practices are not used. EPA requires certification for renovation firms, and training and certification for renovators.

Prevention is the Goal.

Lead dust from renovation work can cause lead poisoning in: children, pregnant women, yourself, other workers, and even pets.

EPA's Renovation, Repair, and Painting Final Rule 40 CFR 745:

Requires that renovations conducted for compensation, must be performed by Certified firms using Certified Renovators. This includes landlords and their employees.

Renovation firms that wish to work in **pre-1978** homes and child-occupied facilities must apply to the EPA and pay a fee in order to become certified. Renovators seeking to become Certified Renovators must successfully complete the EPA accredited renovator course.

IEE offers:

Certified Renovator Initial Course - English

Certified Renovator Initial Course - Spanish

Certified Renovator Refresher Course - English

Certified Renovator Refresher Course - Spanish

IEE also provides Lead Abatement/Deleading courses in MA & NH.
