LEAD
Safety
for Renovation,
Repair, and
Painting

IEE is fully accredited by the US EPA
to conduct training for the
Renovation, Repair, and Painting Program

Lead Safety for Renovation, Repair, and Painting

This course was developed by the U.S. Environmental Protection Agency (EPA) in collaboration with the U.S. Department of Housing and Urban Development (HUD) to train Renovation, Repair, and Painting contractors on how

to work safely in housing with lead-based paint and comply with EPA's Renovation, Repair, and Painting (RRP) Rule, and HUD's Lead Safe Housing Rule.

Overview of 8 hr. Course

Registration & Introduction (including photo)

Why Should I Be Concerned About Lead Paint?

Training Non-Certified Renovation Workers

Hands - On Activities / Review / TEST

Who should take this Class?

- ◆ Home Improvement / Renovation Contractors
- ◆ Residential Rental Property Managers / Owners
- ◆ Remodelers / Carpenters
- ◆ Painters
- ◆ Plumbers
- ◆ Electricians
- ◆ Maintenance Personnel
- ◆ Workers Removing or Modifying Painted Surfaces
- ◆ Anyone disturbing more than 6 sq. ft. (Interior) & 20 sq. ft. (Exterior) of lead paint

Working in residential homes, apartments, child care facilities and schools built pre-1978

What Activities are Subject to the RRP Program?

- ◆ Remodeling and Repair / Maintenance
- ◆ Electrical Work
- ◆ Plumbing
- ◆ Painting
- ◆ Carpentry
- ◆ Siding / Window Replacement

Dust from renovations, repairs, and surface preparation during painting activities creates potential lead hazards when lead-based paint is disturbed and lead-safe work practices are not used. EPA requires certification for renovation firms, and training and certification for renovators.

Prevention is the Goal.

Lead dust from renovation work can cause lead poisoning in: children, pregnant women, yourself, other workers, and even pets.

MA DOS amended version for Renovation, Repair, and Painting: 454 CMR 22.00

Requires that renovation, repair and painting (RRP) work conducted for a fee in pre-1978 target housing and child-occupied facilities where the work involves the disturbance of more than 6 ft² of painted surfaces per room or more than 20 ft² of paint on exteriors (total), except that the quantity exemptions do not apply to any projects involving window replacement or demolition of structures, must be supervised by a trained Certified Lead-Safe Renovator.

Firms performing work require licensure as a "Lead-Safe Renovation Contractor and pay a fee of \$375.00 to the MA DOS (good for 5 yrs).

IEE offers:

Certified Renovator Initial Course - English

Certified Renovator Initial Course - Spanish

Certified Renovator Refresher Course - English
